

## **On-Site Learning Opportunities -- Attendance Protocols and Safety**

### **At Home Prior to Leaving for School**

Families should follow the student screening expectations for the symptoms (listed below) each morning before arriving to school. Self-report symptoms to the school and keep students home if any of the following symptoms are present.

- Fever (100.4 or higher) or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

### **Arriving on Campus**

Students should bring their Chromebooks so they can access their distance learning assignments. Students will be screened for the symptoms listed above and have their temperatures checked.

- For temperatures of 100.3 or lower, the students will wash hands and go directly to their seats
- For temperatures of 100.4 or higher, students will wait 5 minutes and retake. If still 100.4 or above, parents will be expected to take their children home.

ALL students will be required to:

- Wear face coverings
- Physically distance whenever possible
- During lunch and recess, students may remove face coverings if they are physically distancing.
